MAGIC - 24 BUNDLE

The ultimate t-shirt decorating system on the market.

Everything you need is in this DTF MAGIC bundle package. All DTF MAGIC machines come pre-assembled and tested to ensure the machine is working properly before being signed off by one of our techs then shipped. This means they leave our warehouse in a special crate, arrive at your doorstep, and once unpacked the machine is ready to go.

You get the machine, pour your inks in, open the laptop and drag your image, then print. You're up and running in a matter of minutes.
